PROFESSIONAL SUMMARY

Fresh graduate D4 Informatics Engineering from State Polytechnic of Malang with a GPA of 3.62/4.00 (Cum Laude). Experienced in developing web-based information systems through internship, academic, personal, and thesis projects using PHP, Laravel, MySQL, HTML, CSS, and JavaScript. Familiar with system analysis, database design, UI/UX, authentication, reporting, and application testing. Interested in contributing as an IT Programmer in developing and maintaining information systems while continuously improving technical skills.

EDUCATION

D4 Informatics Engineering — State Polytechnic of Malang Aug 2022 – Aug 2026
Malang, East Java | GPA: 3.62/4.00 | Graduated Aug 29, 2026

High School Diploma — SMA Al-Huda Boarding School Jul 2019 – Jun 2022
Tuban, East Java

EXPERIENCE

Front-End Mobile Developer Intern — PT Utero Kreatif Indonesia Jun 2025 – Dec 2025
Malang, East Java

- Implemented UI/UX for 10+ features (Login, Register, Onboarding, Homepage, Notifications, and more) on WORECA, a smart music streamer mobile app
- Performed UI testing and debugging to ensure consistent navigation, responsiveness, and interface behavior across the app
- Authored User Guide and Admin Guide documentation, plus Use Case and Activity Diagrams to support system requirements

PROJECTS

Full-Stack Developer — "Vendor Savve" Item Storage Management System (Thesis Project) Jan 2026 – Jun 2026
Malang, East Java

- Designed and built transaction, item-retrieval, reporting, and event-management features using Laravel, PHP, and MySQL
- Implemented role-based authentication and access control for Admin and Cashier users using Laravel
- Designed and prototyped 10 features in Figma prior to development, aligning UI/UX with system requirements

Full-Stack Developer — HIRADC & Live Audit Reporting System (Personal Project) Jan 2026 – Apr 2026
Surabaya, East Java

- Built a hazard-identification and live audit-reporting web system for a steam power plant company using Laravel and PHP, enabling real-time audit submission, hazard categorization, and admin monitoring of audit status
- Designed responsive interfaces with AdminLTE and Figma to support real-time audit monitoring
- Designed the database schema and integrated MySQL for reporting and hazard-tracking functionality

Plarena — Sports Field Booking Information System (Academic Project, 6th Semester) Feb 2025 – Jun 2025
State Polytechnic of Malang, Malang City, East Java

- Built a web-based sports field booking system (Plarena Sport) with real-time schedules and online reservation management, using Next.js and Laravel
- Designed a flexible, easy-to-understand UI/UX with subtle color gradations, prototyped in Figma

RW Administration Information System (Academic Project, 4th Semester) Feb 2024 – Jun 2024
State Polytechnic of Malang, Malang City, East Java

- Built SIWA, a citizen information system with a dashboard for population statistics, dues/payment tracking, and letter-request notifications, using Laravel and PHP
- Designed a UI/UX accessible to citizens across different generations, prototyped in Figma

Reading Room Information System (Academic Project, 3rd Semester) Nov 2023 – Dec 2023
State Polytechnic of Malang, Malang City, East Java

- Built E-Pustaka, a reading-room information system with a dashboard for the book catalog, borrowing count, and return tracking, using HTML, CSS, and PHP
- Designed an easy-to-understand, flexible UI/UX, including user-flow mapping in Figma

Healthify — Fitness Monitoring & Training Mobile App (Academic Project, 5th Semester) Sep 2024 – Feb 2025
State Polytechnic of Malang, Malang City, East Java

- Developed Healthify, a fitness-monitoring and training-plan mobile app, using Flutter with a Laravel backend, targeting Android
- Designed a flexible, easy-to-understand UI/UX with subtle color gradations, prototyped in Figma

ACHIEVEMENTS

- Graduated with Honors (Cum Laude) in D4 Informatics Engineering, GPA 3.62/4.00 (2026)
- Thesis system validated with 60 End-to-End test scenarios (100% pass) covering all 28 Functional Specifications; approved by Vendor Savve management (Jun 2026)

SKILLS

Technical Skills: IT Programming, Web Development, Full-Stack Development, System Analysis, Database Design, Application Testing

Programming & Markup: PHP, JavaScript, HTML, CSS

Frameworks: Laravel, Bootstrap, AdminLTE

Database: MySQL

Tools: Git, GitHub, VS Code, Figma

CERTIFICATIONS & TRAINING

Computer Software Programming Certification — LSP (Professional Certification Body) Jun 2026

Claude Code in Action — Anthropic Courses Sep 2026

Building with the Claude API — Anthropic Courses Sep 2026

AI Fluency Framework & Foundations — Anthropic Courses Sep 2026

ORGANIZATION & LEADERSHIP EXPERIENCE

Student Mentor — Departmental Pre-Study Committee, State Polytechnic of Malang May 2024

- Guided incoming students through orientation activities and helped resolve onboarding issues, supporting 35 new students

Committee Lead — Dies Natalis Committee, State Polytechnic of Malang Mar 2023

- Led event briefings and coordinated 15 technical sub-committees to ensure the event ran on schedule

VOLUNTEER EXPERIENCE

Supervisor, Gate Crew — Semesta Berpesta Malang Jul 2025

- Supervised gate/entrance crew operations at a large-scale public event, overseeing visitor flow and coordinating team members to ensure smooth entry management

Ticketing Crew — BandaNeira Tour Concert Apr 2024

- Set up and managed the online ticketing system and coordinated barcode-based ticket redemption at the venue

Data Card Crew Volunteer — Kickfest Sew-Stayin (Dyandra Promosindo) Sep 2024

- Produced ID cards and Special Guest Invitations for participating clothing brands and small businesses (UMKM), maintaining accurate participant data throughout the event
