PROFESSIONAL SUMMARY

Junior Web Developer specializing in Laravel, PHP, and MySQL, with experience taking web systems from requirements and Figma prototypes through implementation and end-to-end testing. Delivered an item storage management system for Vendor Savve, validated through 60 end-to-end test scenarios against 28 functional specifications and approved by the vendor's management. Also experienced in role-based access control, relational database design, REST API integration, and Flutter.

SELECTED PROJECTS

Vendor Savve Item Storage Management System — Full-Stack Developer (Thesis Project) **Jan 2026 – Jun 2026**
Tech stack: Laravel 12, PHP, MySQL, HTML, CSS, JavaScript, Figma, End-to-End Testing (Cypress)

- Developed a web-based item storage management system for Vendor Savve, covering transactions, item retrieval, reporting, and event management.
- Implemented role-based authentication and access control for Admin and Cashier users using Laravel.
- Prototyped 10 features in Figma before development to align UI/UX with system requirements.
- Validated all 28 functional specifications through 60 end-to-end test scenarios (100% pass); system approved by Vendor Savve management (Jun 2026).

HIRADC & Live Audit Reporting System — Full-Stack Developer (Independent Project) **Jan 2026 – Apr 2026**
Tech stack: Laravel, PHP, MySQL, AdminLTE (Bootstrap), HTML, CSS, JavaScript, Figma

- Developed a web-based hazard identification (HIRADC) and live audit reporting system as a self-initiated project, working with a partner steam power plant company as a real-world case study.
- Implemented real-time audit submission, hazard categorization, and an admin dashboard to monitor audit status.
- Designed the MySQL schema for audit reporting and hazard tracking; built responsive interfaces with AdminLTE, prototyped in Figma.

EXPERIENCE

Front-End Mobile Developer Intern — PT Utero Kreatif Indonesia, Malang, East Java **Jun 2025 – Dec 2025**
Tech stack: Flutter, Dart

- Implemented UI for 10+ features of WORECA, a smart music streamer mobile app, including Login, Register, Onboarding, Homepage, and Notifications.
- Performed UI testing and debugging to ensure consistent navigation, responsiveness, and interface behavior across the app.
- Authored User Guide and Admin Guide documentation, plus Use Case and Activity Diagrams to support system requirements.

OTHER ACADEMIC PROJECTS

- **Plarena** (2025): Field booking system with real-time schedules. *Next.js, React, Laravel REST API, Figma*
- **Healthify** (2024–2025): Android fitness-monitoring and training-plan app. *Flutter, Dart, Laravel REST API, Figma*
- **SIWA** (2024): Citizen information system with population statistics dashboard, dues tracking, and letter-request notifications. *Laravel, PHP, Figma*

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript, Dart, HTML, CSS
Frameworks & Libraries: Laravel, Next.js, React, Flutter, Bootstrap, AdminLTE
Database: MySQL
Development Tools: Git, GitHub, Figma, VS Code, Trello
Technical Competencies: REST API Integration, Role-Based Access Control, Relational Database Design, System Analysis (Use Case & Activity Diagrams), UI/UX Prototyping, End-to-End Testing, UI Testing & Debugging

EDUCATION

D4 Informatics Engineering — State Polytechnic of Malang, Malang, East Java **Aug 2022 – Aug 2026**
GPA 3.62/4.00, Cum Laude | Graduated Aug 29, 2026

High School Diploma — SMA Al-Huda Boarding School, Tuban, East Java **Jul 2019 – Jun 2022**

LEADERSHIP & VOLUNTEERING

- **Committee Lead**, Dies Natalis Committee, Polinema (Mar 2023): Led briefings and coordinated 15 technical sub-committees to keep the event on schedule.
- **Student Mentor**, Departmental Pre-Study Committee, Polinema (May 2024): Guided 35 new students through orientation.
- **Event Volunteer**: Gate Crew Supervisor, Semesta Berpesta (2025); Ticketing Crew, BandaNeira Tour Concert (2024).

CERTIFICATIONS

- **Computer Software Programming Certification**, LSP (Jun 2026)
- **Anthropic**: Claude Code in Action; Building with the Claude API; AI Fluency Framework & Foundations (2026)
